

1. Crazy For Righteousness

**We're crazy, crazy for righteousness
Follow the Almighty and be blessed
Righteous living is the best**

It is wonderful when the children practice things they learnt in school
It is beautiful, positively active, they know goodness rules
Strong and mightyful, believe in justice, no one gonna take em for a fool
God bless their attitude. He's gonna make them massive, gonna make them big

Got to be good, surely we could
Everybody get along, get along good
Into the fire we push more wood
Serabriansky King of the hood

Babylon rude come to intrude
Moving so freakish I don't think we should
Include no evil
God alone gets me in the mood. That's why...

**We're crazy, crazy for righteousness
Follow the Almighty and be blessed
Righteous living is the best**

So crazy
Study the Tora don't be lazy
Life is big, God is amazing
Good people keep the fire blazing

And the rages
Have a look into the history pages
How they locked us in all those bloody cages
And we couldn't see the light for ages. Still we gave praises

My people, good people, nice people, do good
Only show love and never do evil
All along the way we go carry his name
We will not go stray and we will not go swivel

Never gonna mix with the eagle
With the bear we never gonna mingle
No bimbos we rather be single
And just keep on giving praises, cause...

**We're crazy, crazy for righteousness
Follow the Almighty and be blessed
Righteous living is the best**

Wow... It's the feeling I've been dreaming of
Wow... One big universe of love

2. Pull Up

Yes, you know, mankind is like the Melanoma of planet earth
Over population leads to global warming
Leads to sufferation and extinction of all living things
God only help those who help themselves so people...
Now is the time to realise, acknowledge and act
Before it's too late and mother earth vanishes under our feet

More than six billion in total
In the last fifty years the number tripled and quadrupled
Oh god, the disaster is global
Some say it's flat, some say it's oval

Only one child per person or two kids per couple
Great idea, deserves to win a Noble
While the ignorant deserve to wear the cow bell
Brainwashed in the bubble, must escape it on the double

And keep it humble
In the toilet, in the casino, sniff cocaine between their gambles
Squeezing out the honey of the bumble bee, the bumble
Infectious fungal

Eve my darling we struggle
I told you not to eat from the forbidden apple
Now we lost control of the imported and the local
That's why I'm getting vocal

**Pull up, rewind
Let mama earth unwind
Feel good, be kind
And don't you be blind**

Pull it up, pull it up
Now it's time to cool it up
Our children face a c#nt of a future
See it coming up

I wanna see my children live it up
As they're growing up
Their safety is the only thing to cheer me up

Hurry up
All this shit is building up
Oh no, yeah, we're the ones who built it up
And it wouldn't stop until we pop and drop

We wear the title
Reason out, I light myself a Feissel
I feel high, like the tower of the Eiffel
Cause from now on...

The plastic and the carton box recycle
Instead of driving in the car, we cycle
Instead of the Mc Donald's we eat Ital
Listen to Raz Bin Sam instead of to ...

**Pull up, rewind
Let mama earth unwind**

**Feel good, be kind
And don't you be blind**

3. What's The Matter

**Ask the girl what's the matter
On the sandwich no more butter
She's afraid of getting fatter
She's only drinking water**

I like the sexy girl chubby
I like them strong, I like them stubby
I like them in my bedroom
I'll do them down the lobby
I like the sexy girl always
With healthy mind and body

So her vagina I go study
For when I'm taking home the lady
Late at night after the party
I want it clean, I want it groomed, I want it tidy

**Ask the girl what's the matter
On the sandwich no more butter
She's afraid of getting fatter
She's only drinking water**

You stopped eating now you're scrawny
The cuddles don't feel nice, now you're too bony
It doesn't turn me on, it doesn't make me horny
Go and eat some chicken macaroni

Why you stick a finger down your throat
Better go and play with something else down your throat
Something in a shape of a banana, or a boat
Top it up with honey or a chocolate coat

Food for life, food for thought
Healthy food freshly cooked is what it's all about
Your stomach doesn't bloat
Food and more food I promote

**Ask the girl what's the matter
On the sandwich no more butter
She's afraid of getting fatter
She's only drinking water**

4. Mist In The Jungle

Without guidance this whole world is like a big mist in the jungle
From the moment I wake up in the system, see me rumble
It is tough, sometimes frustrating, sometimes I stumble
But never I go astray, never I go fumble

Whores, and guns, and badness to the youths, they're bad example
Like the cowboys in the movies, you get shot if you don't humble
That's why I say 'Babylon go crumble'
And we don't get caught up in their mumble jumble

**What a delight now, what a pretty sight now
Beautiful clean people they unite now
Big fire, light now, and in the fire throw
All the bad and let your good side show**

Righteousness the Hebrew man declares
Enjoy yourselves, and spread the love and care
The land of Jerusalem's for all of us to share
The good, the bad, the eagle and the bear

Judgement sits around the corner, be prepared
Everybody wants to be somebody, consider
For when you play the game, you got to play it fare
And oh, yeah, don't you go astray

**What a delight now, what a pretty sight now
Beautiful clean people they unite now
Big fire, light now, and in the fire throw
All the bad and let your good side show**

5. Livin' Like That Ft Jah Mason

**Why are you livin' like that, livin' like that
You're killin' the innocent youths and now it's time you should stop
Why are you livin' like that, livin' like that
You're killin' the innocent youths and now it's time you should stop**

The children need a good example
Show them strong, we show them humble
Show them in the battle, not to fumble
Praise the most high, don't you crumble

The children need an education
The almighty is the inspiration
Follow him with dedication
You are the future of this nation

Now it's time for a celebration
We got gifted a revelation
So liberate the innocent out of captivation
Together as one

Why are you livin' like that, livin' like that
You're killin' the innocent youths and now it's time you should stop
Why are you livin' like that, livin' like that
You're killin' the innocent youths and now it's time you should stop

You're being unkind
Look what you're doing to mankind
Let's live it up, like one time
No violence, no crime
Together let us join one line
Time we stop act so blind
Forget the wicked and rewind
Jah will be mine

What a pity that you're spitting
In the plate that you are eating
What a pity little girl
In the streets you flash your titty
What a pity, now you wanna be pretty
Caught up in the glam and the glitty
What a pity, you don't keep the Shabat
You don't keep the Shabbat

What a bum, you oppress,
Now me bredrin's addicted to rum
What a bum, you will keep on oppressing
Until the judgement come
And when the judgement come from the sky
There will be nowhere to run
Let the wicked get eaten and the evil get done
In me fire hotter than the sun.

Why are you livin' like that, livin' like that
You're killin' the innocent youths and now it's time you should stop
Why are you livin' like that, livin' like that
You're killin' the innocent youths and now it's time you should stop

Now really, we need a plan to survive
Do good and the Messiah will arrive
Truly, one love, all tribes
Stay together and alive

Silly boy, don't annoy and destroy
Stop cause you're killing the joy
Silly boy, don't annoy and destroy
Stop cause you're killing the joy

Why are you livin' like that, livin' like that
You're killin' the innocent youths and now it's time you should stop
Why are you livin' like that, livin' like that
You're killin' the innocent youths and now it's time you should stop

6. No Pagan

**I'm not a pagan
I come with culture, and the truth my life is based on
God is the only one I can depend on
Stand strong and don't do no wrong**

Let me tell you Jew is clever
Let me introduce the Jew, oh it's a pleasure
Let me tell you that my culture is my treasure
More valuable than silver and gold

It is the latest thing
It makes me wanna sing
So much Joy it brings
So I go voice a riddim

**I'm not a pagan
I come with culture, and the truth my life is based on
God is the only one I can depend on
Stand strong and don't do no wrong**

In this world of sin, and a world of machine
Not so many come in a human being
So I'm keeping my culture, wherever I'm going
So I know where I've been

This lifestyle, sunshine, long sky and scene
Children, I wanna see you go and boost your self esteem
Love has always been making us stronger
Remove the hate and live longer

**I'm not a pagan
I come with culture, and the truth my life is based on
God is the only one I can depend on
Stand strong and don't do no wrong**

7. Own This Life

God put you on this earth for a reason
You get wiser and wiser season by season
So as the sweet breeze on your face is breezing
I wanna see your confidence increasing

Yes, bless, morning prayer makes me feel the best
Stone off me chest as the music me caress
No stress is my major interest
In this crazy time and place
And when the system me oppress
I'll go away to get some space

**You own this life
You own this life of yours
You own this life
You own this life of yours**

So when you walk the walk, you got to walk it proud
And when you talk the talk, you got to talk it loud
When you make a choice, you can not have a doubt
You live it up alright, that's what it's all about

In any shape and size, now mankind realise
Hundred percent is the only way to go
So positivity, I'm gonna schedule in my activity it is essential
For my levity you know

**You own this life
You own this life of yours
You own this life
You own this life of yours**

Shabbat afternoon, I am free like the bird on the tree
And all the people I meet down the street, I will greet with friendship
Shabbat afternoon, life is good, I am free and yes I got to agree
I'm gonna make the most of this life, and do my best to deserve it

**You own this life
You own this life of yours
You own this life
You own this life of yours**

8. No Place In Our Hearts

**We got to stop them
Shake and slap them
And wake them up them
Evil got no place in our hearts**

Arale Bin Sam from Belongil Court
Where in the streets, my people clean and pure
And all the people, the almighty we adore
Prosperity for sure

Here comes Al Qaeda, wanna open up a war
But Israelites not gonna soften up, we core
And from the mountain to the ocean shores
We keep Jerusalem secured

**We got to stop them
Shake and slap them
And wake them up them
Evil got no place in our hearts**

Israelites, now I need you people active
For us to rise, we got to stay communicative
Congregate, collective effort is constructive
Live in love and be productive

God will lead, and will be followed by the massive
God's warriors will free our bros out of the captive
God's glorious words are so attractive
That's why we're so decisive, we say...

More love and unity
More support to our community

To our youths more opportunity
Shelter from the war, give the security

I wish this had nothing to do with me
But all the while they've had some beef with me, it seems to me
And none of us got diplomatic immunity
So we fight to stay alive

**We got to stop them
Shake and slap them
And wake them up them
Evil got no place in our hearts**

9. Clean n' Pure for Sure

**Clean n' pure for sure
Clean n' pure for sure
Clean n' pure for sure
I'm clean, I'm clean n' pure**

No need to compete to prove we've got the hygiene
We flow, we glow, and that is how we know that we are clean
No need to make profit of other people's suffering
Everybody follows if it's pure and clean

Sit up, straight and eat proper
No chatty-chat until you finish your supper
Give respect to God, your head in public go cover
Welcome the Shabbat on the third star hour

Practice makes perfect, you'll devour
All the obstacles, the rough, the bitter and the sour
No vanity, always remember Babble tower
Collapsed on them for trying snatching God's power

Brush your teeth twice a day, at least once have a shower
Treat your lady with respect, show her that you love her
Take her to the movies, surprise her with a flower
Clean and pure for sure, now you have her

**Clean n' pure for sure
Clean n' pure for sure
Clean n' pure for sure
I'm clean, I'm clean n' pure**

They say I'm a renegade, they say I misbehave
I'm gonna find myself a little Nazi and make him my bitch slave
They say I misbehave, they say I'm a renegade
I'm gonna grab myself a little Nazi and kick his head until he's ...

Cause' I know that God is big and wise
So I follow his ways, and his powers of glorious size

The pagan flow, I analyse
The golden calf, they idolise

Just for fun they tell me lies
Masturbate and fantasise
Be yourself, don't disguise
Give Almighty lots of praises

**Clean n' pure for sure
Clean n' pure for sure
Clean n' pure for sure
I'm clean, I'm clean n' pure**

10. Life Is A Gift Ft. Ray Darwin

I am wealthy, of the good stuff I got plenty
Nothing fancy, I tell you simple life is worthy

I got my woman to couch and ouch with
I got my gangsters to go hang out with
I got a veggie patch to sprout and crout with
Roots and herbs, God's earth I'm down with

**God gave me love, to go about with
And a family, to make me proud with
And the music, we sing and shout with
Life is a gift, no doubt about it**

Give the children love as an example
Teach the children life as an assemble
Tell them we're all alike, we all resemble
I tell the kids, 'with life we don't gamble'

When me was a youth my granny whip me, and I tell you
Me skin would catch a fire
Nearby reggae music in a pit in Byron Bay
And the flames just blazin' higher
Say me couldn't leave the yard because the dance
Have too much weed and Rasta
See, I love you granny dear but
And the flames just blaze it higher

Say they play reggae music nice
A lesson in a life, come the hard way
Sometimes we slip and we falter
Listen to the music that them playing
Do the rub-a-dub a little daughter
In a Byron Bay, one way, let the music play...

**Give the children love as an example
Teach the children life as an assemble
Tell them we're all alike, we all resemble
I tell the kids, 'with life we don't gamble'**

11. Gevald

Wowowo Gevald !!
Wowowo Gevald !!

God gave man too many options
Man go use it for destruction
With all this brain, man don't think his action
Chasing pussy and gaining the world are his only passion
Steals the animal skin, so he can dress in fashion
Sends his woman to do abortion

Wowowo Gevald !!
Wowowo Gevald !!

So he kills the forest and the ocean
Then at night he cries, he says, he's got emotions
But his only emotion is about how big is his portion
His behaviour is out of proportion
All these drugs and crazy potions
Now for war and crime, he makes promotion

Wowowo Gevald !!
Wowowo Gevald !!

Thunder and lightning
Mother earth do come back and it's frightening
Mother earth we knockout without trying
For respect mama earth been crying

She's quick, she's fast
She will leave us in the dust
When will mankind see at last
Respect your mama is a must.

12. Something to Remember

Give them something to remember
Give them something so they know Almighty no pretender
Give them something to remember
Give them something to remember Almighty love

I have to pay the taxes
The system is designed so I never make no progress
They wanna come, and rob, and kill
And fill their treasure boxes
No matter how you look at it, the fact is...
That if you wanna make things better, you got to keep on practice
And kill the Nazi and the racist
Hebrew man shall stand

Give them something to remember
Give them something so they know Almighty no pretender

**Give them something to remember
Give them something to remember Almighty love**

What is goin' on there
Peer pressure, how you gonna handle
The plight of the common people
They feel no love at all

**Give them something to remember
Give them something so they know Almighty no pretender
Give them something to remember
Give them something to remember Almighty love**

My people in Diaspora are still surviving
We sing a song as we remember, the gas chamber we still rising
Productive way, unleashing me anger
On god's love alone, the music is vibing
From the ruff to the tender, January to December
We'll be braving...

**Give them something to remember
Give them something so they know Almighty no pretender
Give them something to remember
Give them something to remember Almighty love**

I have to pay the taxes
The system is designed so I never make no progress
They wanna come, and rob, and steal
And fill their treasure boxes
No matter how you look at it, the fact is...
That if you wanna make things better, you got to keep on practice
And kill the Nazi and the racist
Hebrew man shall stand

**Give them something to remember
Give them something so they know Almighty no pretender
Give them something to remember
Give them something to remember Almighty love**

13. Sweet N Vicious

**Sweet n' vicious words power and sound
Tell it like it is, Bin Sam's around
Sweet n' vicious Bin Sam's in town
Lift the people up with words power and sound**

Cannot give me bull
Yes I've been to school
I live and learn and now can say
Who's the fool and who's the cool

Music is my tool
My domain I rule
Yes, I'm the King I tell you

Babylon is my foot stool

Sweet n' vicious words power and sound
Tell it like it is, Bin Sam's around
Sweet n' vicious Bin Sam's in town
Lift the people up with words power and sound

No, no, don't cut me flow
Open to my vibe and let my light show
Sometimes bright, sometimes so and so
I'm only human you know

I'm on the ball, I rock n' roll
Land on my feet every time I fall
No police, cannot catch me at all
No police, not the Interpol
I pick the goal, and kick a goal
Babylon whip and bowl
Check them, beg and crawl

Sweet n' vicious words power and sound
Tell it like it is, Bin Sam's around
Sweet n' vicious Bin Sam's in town
Lift the people up with words power and sound

And the haters, I don't hate them
I just wanna let them know
That the more they try to kill us
The more we live and grow

And the lover's God will bless them
For them I'll put on a show
Let the Bin Sam vibe stretch them
From head to tow

Sweet n' vicious words power and sound
Tell it like it is, Bin Sam's around
Sweet n' vicious Bin Sam's in town
Lift the people up with words power and sound

Cannot give me bull
Yes, I've been to school
I live and learn and now can say
Who's the fool and who's the cool

Music is my tool
My domain I rule
Yes, I'm the King I tell you
Babylon is my foot stool

Boom, love the golden rule
And the music to above Almighty rule
This music is never empty, it's always full
Bin Sam gives you fuel

Sweet n' vicious words power and sound
Tell it like it is, Bin Sam's around
Sweet n' vicious Bin Sam's in town
Lift the people up with words power and sound

14. Soul to Sound

**Music wears the crown
Music heals the people when they're out and down
In the city, in the country, in suburbia town
Music helps the people carry on, Soul to sound**

We ring the bell, we yell
We turn the volume up a hundred decibel
Music is do good, we got to kiss and tell
If you don't like it, you go hell

In everyday struggle, when almost we stumble
In the system's jungle
Music keeps us positive
Between man and God, music is the channel
I see the light at the end of the tunnel
Music keeps us positive

**Music wears the crown
Music heals the people when they're out and down
In the city, in the country, in suburbia town
Music helps the people carry on, Soul to sound.**

We get together and make things better
Jamming in the backyard, no matter what's the weather
Things are good, I feel light like a feather
Everybody's here, sister, brother, children, elders

Hey, what's the matter?
Don't you love the gift of life from the creator?
Good aroma, tasty flavour
And the music that he gave us, the music is forever

**Music wears the crown
Music heals the people when they're out and down
In the city, in the country, in suburbia town
Music helps the people carry on, Soul to sound.**

Raz Bin Sam - Own This Life
